CIVIL SERVICE LIST

Computer Associate (Software) 670 of 1,179

TECHNICAL SKILLS

HTML | CSS | Javascript | Typescript | React.js | Node | Express | Database | PostgreSQL | MySQL | D3.js | RESTful API | Jest | React Testing Library | Playwright | Bootstrap | Styled Components | Git | Jira | Agile | Scrum | Python | VS Code |

COMPETENCIES

Sprint Lead | Agile Methodologies | Documentation | Project Management | Pair Programming | Team Collaboration | Software Development | Process Improvement | Teaching | Civic Technology

PROFESSIONAL EXPERIENCE

Newsela, New York, NY

June 2022 - June 2023

Software Engineer

I developed two internal tools: a content management system for creating articles and quizzes at different reading levels: React, Node, GraphQL and an interactive video platform: React, TypeScript. Worked on front-end improvements including implementing new features, error handling, responsiveness and user feedback.

- Migrated client-side codebase from JavaScript to TypeScript resulting in less buggy code.
- Followed WCAG 2.0 accessibility standards.
- Improved error-handling, responsiveness and user feedback with loading indicators.
- Collaborated with the UX team and designers to implement user-focused UI.
- Maintained 89% test coverage (Jest, React Testing Library, Playwright).
- Presented demos to both technical and non-technical audiences.
- Rotated as Sprint Lead: coordinated weekly releases, led daily standup, retros, user demos and technical demos.

TripleLift, New York, NY

February 2019 - September 2021

Senior Interaction Engineer 2020 - 2021

Interaction Engineer 2019 - 2020

Junior Interaction Engineer 2019

At ad-tech startup TripleLift, developed the internal tool used to design and code native templates for programmatic advertising (React.js).

- Lead weekly technical grooming sessions to prioritize the feature development backlog.
- Introduced a Scrum-based workflow that improved development cadence and delivery reliability.
- Managed the automation of repetitive tasks which saved the team hours of labor per week.

- Rotated on on-call duty to assess and fix broken or buggy ad templates.
- Instituted a data-collection system to understand team capacity which led to accurate delivery estimates for our customers.
- Mentored Junior Interaction Designers in using Git, SQL and the terminal.
- Designed and coded bespoke, consumer-centric native templates for programmatic advertising

City of NY: Brooklyn Community Board Six, Brooklyn, NY

July 2012 - February 2018

Special Projects Manager (*Contractor*)

I supported the Community Board representing Park Slope, Gowanus, Carroll Gardens, Cobble Hill, Red Hook and the Columbia Street Waterfront District. I managed projects outside of the regular operations of the Community Board District Office.

- Designed and Maintained up-to-date content for our agency website.
- Managed special projects such as campaigns, studies and initiatives.
- Wrote grant applications, managed successful grants:
 - NYSERDA Solarize grant: signed up 22 contracts representing 118.29 kW
 - NYSERDA grant: Red Hook Microgrid Feasibility Study
 - NYC Department of Records: scanned and cataloged 30 years of paper records
- Provided guidance to Planning Fellows.
- Liaised with the public, non-profit organizations, elected officials and city agencies.
- Provided technical support to staff.
- Managed social media, newsletter and outreach materials.

CIVIC TECH PROJECTS

TOLLS-LOL

2024

Github: <https://github.com/snphillips/tolls-lol>

Website: <https://tolls-lol.surge.sh/>

Created with: React.js, Mapbox, NYC Open Data API

This React web app uses Mapbox to visualize 311 complaints about obscured license plates in NYC.

So Trashy

2018

Github: <https://github.com/snphillips/So-Trashy-React>

Website: <https://so-trashy-react.surge.sh/>

Created with: React.js, D3.js, nyc.gov API

Interactive data visualization comparing New York City's Department of Sanitation's monthly collection of refuse and recycling.

EDUCATION

Software Engineering Intensive, General Assembly, New York, NY

Master of Fine Arts (M.F.A) Degree, Brooklyn College CUNY, Brooklyn, NY

Bachelor of Arts (B.A) Degree, University of Toronto, Toronto, ON
